Members Taking the

Lead

Clean Water Services - Sewerage to Brewerage

Victor Valley Wastewater Reclamation Authority - implemented first-of-its-kind Omnivore biogas production system

City of Gresham - First energy net-zero WWTP in Pacific Northwest

DC Water - Modify Long Term Control Plan to include green infrastructure

NACWA 's

Role

- Members innovate but this is only possible under sensible regulatory and legislative regime
- NACWA works in DC to create a regulatory and legislative environment that allows clean water agencies to innovate and thrive

NACWA

Priorities:

- Integrated Planning/Financial Capability
- Funding/Financing
- Stormwater
- Climate Change/Green Infrastructure
- State/Regional
- Advocacy
- Link between advocacy & communication
- Wipes/ 'Toilets are not trash cans' /Product Stewardship

Modernizing the Clean

Water Act

Is the CWA moving us away from sustainability?

- Short answer is yes
- CWA needs to be updated to:
 - Allow for prioritization across environmental statutes;
 - Promote innovation;
 - Focus on compliance

Join the NACWA

Family!

- Utilities of ALL sizes are welcome
- Upcoming meetings:
