

Do a cybersecurity evaluation ASAP!

Cartoon credits: The Economist 2009

A decorative header image featuring a blue and white binary code (0s and 1s) pattern on a dark background, with a grid-like overlay.

Be deliberate in how you approach the Digital Age

- Plan for hardware/software obsolescence
- Do a system plan
- Take advantage of experience
- Investment becomes more expensive the longer you wait
 - Components may be cheaper, BUT
 - More needs to be replaced
- Assess your workforce profile

Bringing Your Utility into the Digital Age
