

Renewable Energy Projects Financing Solutions

September 18, 2012

About Energy Trust of Oregon

Our mission

To change how Oregonians produce and use energy by investing in efficient technologies and renewable resources that:

- Develop new sources of clean energy
- Help Oregonians manage energy costs
- Stimulate the economy
- Protect the environment

Renewable Energy
Programs at
Energy Trust
A Clean Energy Opportunity

Renewable Energy Technologies

Solar

Biomass

Hydro

Geothermal

Wind

Standard versus Custom Incentives

- Incentives based on installed capacity
- Incentives based on a custom financial evaluation

Standard programs

- Direct Ownership
- Third Party Ownership

Custom Programs

- Evaluate the actual costs and benefits of project.
- Incentive based on the unique circumstances of the project.

Project Support

- Development Assistance
- Technical Assistance
- Direct Incentives

Program Changes

- Demand for incentives outstrips budget
- Instituting competitive processes

Trends in Oregon

- Repowering projects
- New engine installations
- Co-digestion
- Solar Installations
- Small hydro opportunities

Thank you!
